About me

Product Designer with 8 years of experience designing enterprise and B2B products across complex workflows, data-heavy interfaces, and web applications. I work across the product lifecycle from understanding user problems and defining solutions to prototyping, UI design, and collaborating with engineering to bring products to life.

EXPERIENCE

UI/UX Product Designer

Springworks - Dec 2020 - Aug 2026

Responsibility

- Led end-to-end product design across enterprise web applications, from problem definition and user flows to wireframes, prototypes, high-fidelity UI, and developer handoff.
- Partnered closely with Product and Engineering to shape product requirements, challenge assumptions, and improve usability across complex workflows.
- Designed data-heavy interfaces and operational workflows, including dashboards, tables, configuration experiences, and multi-step processes.
- Worked with cross-functional teams to establish reusable UI patterns and maintain consistency across product experiences.

Industry Knowledge

Product Design

User Interface

User Experience

Interaction Design

Wire-framing

Rapid Prototyping

Tools & Technologies

Figma, Sketch, Adobe XD,
Invision, Zeplin, Claude, Slack,
Framer

Languages

Kannada (native)

English (professional)

Hindi

Key projects

Springverify (Enterprise Background Verification Platform) –

Designed complex operational workflows across vendor management, verification, approvals, and AI-assisted experiences, simplifying fragmented processes for Operations and client-facing teams.

EngageWith (Employee Engagement Platform) –

Designed engaging employee recognition and rewards UI, enhancing user interaction. Created a seamless Slack and Microsoft Teams integration, enabling real-time peer recognition.

EZ Drafts (Real Estate Contract Drafting Tool) –

Defined the product's visual language and designed workflows for creating, managing, and customizing complex real-estate agreements.

UI Designer

Yellowchalk UI/UX Design studio (Sketch

Oct 2017 - Jun 2020

- Designed responsive experiences across web and mobile products for clients including Pramata and TeamLease.
- Conducted user research and feedback analysis to inform product direction and interaction decisions.
- Established and promoted UI guidelines and reusable design patterns across projects.
- Collaborated with Product, and UX teams from wire-framing through implementation.

UI Consultant - Retainership

Fincare-Disha

Apr 2017 - Sep 2017
