About me

Product Designer with 8 years of experience, including 5 years focused on B2B and enterprise products. Experienced in taking ambiguous problems from discovery to shipped experiences across complex workflows, data-heavy products, and 0→1 initiatives. Strong in product thinking, user research, interaction design, prototyping, and cross-functional collaboration.

EXPERIENCE

Product Designer - Springworks

Dec 2020 - Aug 2026

- Owned end-to-end product design across B2B and enterprise products, from discovery and problem framing through user flows, prototyping, UI design, validation, and engineering handoff.
- Partnered with Product, Engineering, Operations, and client-facing teams to translate ambiguous requirements into scalable workflows and product experiences.
- Designed complex operational workflows across verification, vendor management, approvals, configuration, dashboards, and multi-step processes.
- Conducted user and stakeholder research to identify workflow gaps, validate assumptions, and inform product direction.
- Established reusable UI patterns and contributed to consistent design systems across multiple product experiences.
- Used AI-assisted workflows for research synthesis, exploration, prototyping, edge-case analysis, and faster iteration.

Selected projects

Springverify (Enterprise Background Verification Platform) –

Designed complex operational workflows across vendor management, verification, approvals, and escalation, simplifying fragmented processes for Operations and client-facing teams.

Albus (AI Workplace Assistant) –

Designed conversational and action-based experiences inside Slack, enabling users to search information and execute workflows across connected tools such as Jira and CRM.

EngageWith (Employee Engagement Platform) –

Designed recognition and rewards experiences, including Slack and Microsoft Teams integrations for real-time peer recognition.

EZ Drafts (Real Estate Contract Drafting Tool) –

Defined the product's visual language and designed workflows for creating, managing, and customizing complex real-estate agreements.

UI Designer - Yellowchalk UI/UX Design Studio

Oct 2017 - Jun 2020

- Designed responsive web and mobile experiences for enterprise clients including Pramata and TeamLease.
- Conducted user research and feedback analysis to identify usability issues and inform interaction decisions.
- Collaborated with product, UX, and engineering teams from wireframes through implementation.
- Developed reusable UI patterns and design guidelines across projects.

Retainership - Fincare Disha

Apr 2017 - Sep 2017

- Coordinate with strategy team on design and prototype of new interfaces of mobile app (Company internal product).
- Coordinate with UI Developers to strategise and execute user interfaces.

Junior UI/UX Designer (Intern) - DesignBoat UI/UX studio

Dec 2016 - Apr 2017

- Learnt designing tools photoshop and illustrator
- Learnt about UX and UI designing which includes wire-framing, user research, card sorting different screen dimensions, responsive design.
- Worked with mentor on redesigning a website.

Core skills

Product Design, User Interface, User Experience, Interaction Design, Wire-framing, Rapid Prototyping
Stakeholder interviews, B2B SaaS, Enterprise UX

AI & Emerging Design

AI-assisted research, AI ideation, Design critique, Rapid prototyping, Conversational UX, Agentic workflows

Tools & Technologies

Figma, Sketch, Adobe XD, Invision, Zeplin, Claude, Slack, Framer

Languages

Kannada (native), English (professional), Hindi

EDUCATION

Master of computer application (MCA)

VTU Regional Center Gulbarga

2016

Bachelor of computer application (BCA)

Vivekanand Institute of management

2013
